(Special to the "News."

Logan, Dec. 24 .- Hon. Geo. W. Thatcher died at 7:30 p. m. Tuesday, Dec 23, 1902. Up to a year ago he was one of the strongest and healthlest men in the state with massive frame and active limbs. But stomach troubles came upon him, bringing in their wake affliction of the heart and kidneys and a dropsical condition also supervened. For four or five months he has suffered untold agonies while the fell disease preyed upon him and beat inch by inch his strong constitution. Through it all he has displayed great courage and patience and his devoted wife and family have been in constant attendance at his side to lend every mortal aid in the long and sorrowful battle with death.
George Washington Thatcher, was
one of the foremost men of the west.
He was connected with many of the enterprises of early days which have made of Utah a great state, and his name will go down in history as one of the will go down in history as one of the great builders of his time. He was a banker, a railroad magnate, a mill owner and a capitalist, and his life has been full of activity and enterprise. Passing his youth in the boundless west, he imbibed its broad and sturdy spirit, and drank deep of the inspiration which its massive peaks afford. Like the

SCIENCE OF HOME-MAKING. Why So Suce essfully Studied and Prac ticed in California.

At the present ruling price of land in California less money will procure land enough to support a family well than in any other part of our vast country. There are in that state thousands of families earning a good living. Yesterday's meeting of representawith all the necessaries and many of the luxuries of life, and with something tives of the canal companies in Presilaid by each year for a rainy day, on dent Angus M. Cannon's office was suctracts of from ten to twenty acres. Many thousand acres of such land, still cessful in indicating that a merger by the four companies would be entered unoccupied or poorly farmed, are now on the market at very reasonable prices, say from twenty to one hundred The canal companies were representdollars per acre, according to location ed by the following: Utah & Salt Lake Canal company, Peter Larsen, S. M. T.

and surroundings.
So fertile is the soil and so genial the climate that a place become productive in an incredibly short space of time Something may be realized even the first year, while the third or fourth year will bring an income that may be increased from year to year for many years. This result, of course, presup-poses intelligence and industry, which are necessary to success in any under-

taking. A soil quick and fertile, responding generously to good culture, a climate where cyclones and tornadoes are unknown, and where sunstrokes and rabies never occur, and where for nearly the whole year it is a luxury to live in the open air, are attractions that only

California can offer.

During most of the year the table may be supplied with fresh fruits and vegetables, all of home raising. The fig. vine, clive, peach, apricot and nectarine bear abundantly, while much of the state will produce citrus and other subtropical fruits with but little care. With reasonably good judgment in selecting the land, and the knowledge that the experience of the last twenty years has made common property in regard to what shall be planted and how it shall be cared for, industry and economy are sure to be rewarded with splendid results.

Funeral services over the remains of Anna D. Hill were held yesterday afternoon at the residence of Principal Mc Kay at 954 East First South street Many of the young woman's friends and acquaintances attended the services. They were conducted by Rev. Clarence Brown of the First Congregationa church, who took his text from the twentieth chapter of Revelations. "As we gather today about the bier of Miss Anna Hill," said Mr. Brown, 'our hearts go out in sympathy to the some far away, to the father and mothsit mourning for one whom they had always known as the best of

Planos and Organs, Carstensen brought up a little subject regarding the firm and the Everett piano which happened about six ty days past, and said at that time We have the goods to sell, and knew that our prices and easy payments would sell them, but we never expected business would be so good as at the present time; but the people certainly There is absolutely none better than the Everett, Hardman, Ludwig & Co and Harvard pianos. Besides, we sell number of other makes ranging in price from \$1.5 upward, and have sold good organs for \$15 to make room for other goods. All of this the public has taken advantage of and we were very fortunate that we bought as many pianos as we did, or we would cerhave sold every instrument on Due to this fact, we still have a good stock to make a selection from We are at only one disadvantage and that is we have no cheap pianos on hand, so, in order to take care of our ustomers, we are compelled to sel high grade planes for the same price tor, and a visit to our store will prove
